FREEDOM
Agilix
by PROTEOR

Maximum Shock Value

FREEDOM
Agilix
by PROTEOR

The Freedom Agilix™ is a multi-axial, shock absorbing foot system designed to manage loading impacts, reduce socket shear forces and improve comfort while walking on nearly any terrain. The ultra-lightweight design offers low to moderate K3 ambulators shockingly comfortable performance at a value like no other.

Maximum Shock Value

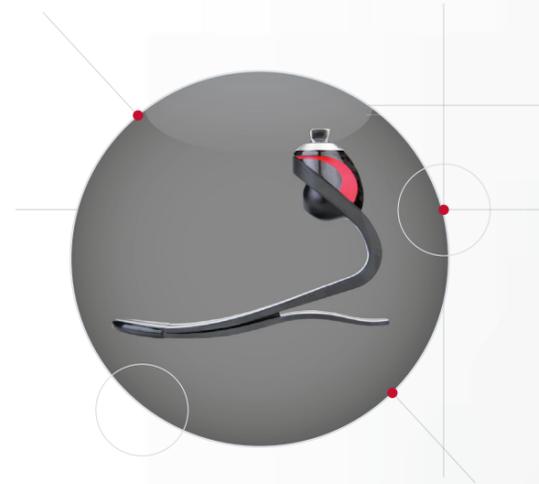

Target Users

K3

Low to moderate K3 level users who would benefit from increased shock absorption, stability and comfort. Rated for users weighing up to 365 lbs.

- Users who prefer a softer, easy to roll-over, foot system
- Users who walk for extended periods for their vocation or exercise

Not recommended: High impact or K4 level users; athletes without a secondary prosthesis

Vertical shock absorption and carbon fiber flexibility optimized for low to moderate impact K3 ambulators; and improves overall comfort

Full length dynamic heel attached at the toe ensures a seamless roll-over, for superior comfort

Multi-axial function increases ground compliance and stability

Shock absorption in a sleek, integrated design makes Agilix lightweight and reliable
